

White Grain Sorghum / Food Grade

Product Profile

- Excellent choice for areas where per-flowering stress is a concern.
- Strong adaptation to western dryland environments.
- White colored grain with good threshability, on semi-open panicles.
- High test weight

A very high quality human food sorghum hybrid with exceptional drought resistance and very high yield potential are the trademarks of this hybrid. It has tan plant color, 1.5-1.75 m height, long semi-open panicle, and excellent foliar disease resistance. This hybrid is the standard for the food, pork and the poultry industries. It is also widely chosen for high moisture grain for the dairy industry.
