

# Photo Period Sensitive BMR Forage Sorghum

## Product Profile

- First true Photo Period Sensitive Brown Midrib forage hybrid
- Multi-purpose forage
- Unprecedented hybrid vigor
- Superior yield
- Outstanding lodging resistance
- Lager stems and huge leaves
- Very high palatability
- Superb foliar disease resistance

This hybrid is a true “break through”. Combining both photo period sensitivity and brown midrib traits into one forage, makes this a near perfect hybrid forage sorghum. Palatability is so high that cattle will eat stems down to the soil if not managed well by cell grazing. Because of hybrid is photo period sensitive it is possible to produce 40 or more leaves in a full season.

### Plant Characteristics

| Plant Color | Plant Texture | Standability | Plant Height | Panicle Type | Midrib Type | Tillering & Regrowth Capacity | Grain Color Planted |
|-------------|---------------|--------------|--------------|--------------|-------------|-------------------------------|---------------------|
| Purple      | Juicy         | 5            | 9-14 (ft)    | Grain        | Brown       | 4                             | White               |

  

|                      |                        |         |                   | Planting Information |                    |                          |                      |                            |
|----------------------|------------------------|---------|-------------------|----------------------|--------------------|--------------------------|----------------------|----------------------------|
| Days to 50% Anthesis | Harvested Grain Tannin | Harvest | Irrigated Tons/Ac | Approx. Seeds/Lb     | Lbs/Ac Dryland Row | Lbs/Ac Dryland Broadcast | Lbs/Ac Irrigated Row | Lbs/Ac Irrigated Broadcast |
| 125-180 (PPS)        | Yes                    | H/G/S   | 35-50             | 14,000               | 5-15               | 15-20                    | 10-15                | 35-40                      |

### Standard Rating

A standard 5 point rating system is used unless otherwise indicated. Ratings are based on comparison with other products of like maturity.

1.....Poor

5.....Excellent
